About Us

GLOBAL PROJECT SARL is a legally registered Congolese company that places quality assurance and quality control at the center of all international processes, undertakings, and activities. The company is committed to delivering high-quality products and services through an effectively implemented and communicated Quality Management System (QMS) across all departments.

GLOBAL PROJECT SARL recognizes that quality and health and safety are shared responsibilities across the organization.

Core Business Activities

Architecture

- Architectural design services for residential housing, estates, apartments, fuel stations, warehouses, and offices.
- Projects throughout South Africa and the DRC, Katanga Province.
- Full service support including design, BOQs, material ordering assistance, and project management.

Cleaning Services

- Office, bank, plant, workshop, and mine-site cleaning.
- Rubble removal, housekeeping, and cleaning in line with international safety and environmental standards.

Plumbing Services

- Plumbing services according to client specifications.

Construction

- Building works, plants, metallic construction, fuel stations, and housing.
- Painting, brickwork, woodwork, metallic work, windows and door repairs, plumbing, electrical work, and welding.

HDPE Geomembrane Lining

- Supply and installation of HDPE geomembrane products.
- Engineered dam design.
- Dam maintenance and repair.

HDPE Pipes Welding and Installation

- Pipeline construction, internal HDPE pipe lining, pipe rehabilitation, and plastic pipe systems.
- Advanced fusion and installation techniques for new or existing pipelines.
- Applications include oil and gas internal pipe lining, mining slurry pipe lining, and tight-fitting lining.

Metallic Welding and Other Services

- Metallic welding.
- Blower and sandblasting services.

Maintenance Services

- Mechanical maintenance assistance: conveyor belt splicing, pumps, feeders, mills, and flotation cells; preventive and corrective maintenance.
- Electrical maintenance assistance: electrical equipment maintenance, electrical installation, and repairs.
- Instrumentation maintenance assistance: automation and control processing works.

Our Values

- **Quality:** Always providing the best quality of services and works.
- **Proximity:** A local company close to customers and quick to respond with proactivity.
- **Sustainability:** Doing business in accordance with environmental respect and social accountability.
- **Awareness:** Promoting health, safety, and environmental awareness among all stakeholders.

Mission and Vision Statement

Mission

Our mission is to deliver consistently safe and high-quality products and services to our customers whenever we are called upon to do so. We aim to maintain a high level of execution without compromising the safety of our stakeholders or the quality of what we provide. We make ourselves available 24 hours a day, 7 days a week, and 365 days a year.

Vision

We strive to become a strong and reliable Congolese enterprise, using all skills-based knowledge at our disposal to surpass our clients' expectations while protecting the health and safety of our employees and clients.

HSSE / OHSA and the Environment

One of our most important goals is to maintain a high level of safety in all our operations. We therefore commit to the following:

1. Perform an initial risk assessment during the planning phase and immediately before work begins.
2. Create a safe working environment for all stakeholders, especially staff and customers.
3. Comply with all health, safety, and environmental regulations issued by the relevant central, regional, and local authorities of the Democratic Republic of Congo.
4. Reduce incidents and accidents in the workplace.
5. Control all possible environmental pollution.
6. Train staff to observe basic health and safety practices relevant to our type of work.
7. Review policies and regulations such as the Occupational Health and Safety Act (OHSA) to remain relevant and compliant.

GLOBAL PROJECT SARL | Quality, Safety, Reliability, and Service

Additional Services

- **Haulage Services:** Transportation of materials, equipment, and goods according to client needs.
- **Crane Operator Services:** Professional crane operation support for lifting, loading, and site handling tasks.
